

Non-slip silicone mats

Non-slip mats made from hard-wearing silicone

Lay the non-slip mat on the shelf to stabilise the stored items. To clean the mat, remove it from the shelf and rinse it under running water.

Non-slip mats as a visual and functional addition to peka shelves. Made of food-safe silicone, the mats offer many advantages: they are pleasant to the touch, hard-wearing, heat-resistant, easy to clean with water and sound-absorbing. The mats are also flexible, making them easy to fit. Their underside clings to the shelf base without sticking to it, and their finely textured top prevents stored items from slipping. Available in stylish oyster white and walnut grey, the mats work well with all colours in the peka range. Their straight design mirrors the cool elegance of the shelves.

Technical data

Design line	Fioro/Liro/Libell
Colour	oyster white/walnut grey
Compatible with	Pleno Standard, Pleno Plus, Hochschrank Standard, Trio, Extendo, Snello, Magic Corner Comfort, Magic Corner Standard, Pegasus

Features and benefits

- Items on the shelves don't slide around
- Pleasant feel with a finely textured surface
- Reduces noise when items are stowed
- Easy to clean under running water
- Made from hard-wearing, heat-resistant, food-safe silicone
- Discreet appearance that complements all peka design lines
- Clings firmly to the shelf base without sticking to it

Technical characteristics

- Easy to fit on the shelf
- Can be retrofitted and replaced at any time
- Scratch-resistant
- Cut precisely to size, so no processing required
- Cost-efficient logistics and limited product variants thanks to standard sizes that fit different shelves and design lines
